

How to... Make your Invites

- 1 Download the templates for your Pocketfold (e.g. Large Pocketfold/ Tall Pocketfold etc.)
- 2 Open the word documents and put in your text for the mat and each of of inserts you are using, then print!

See our Template User Guide for information on how to print straight to the card!

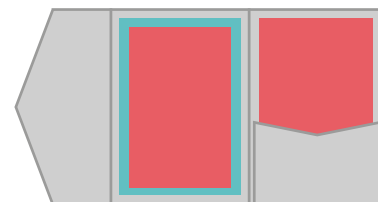

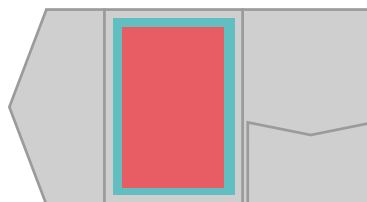

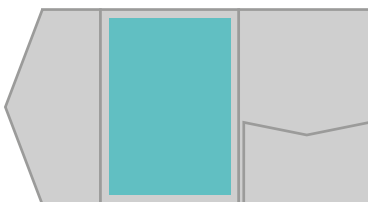

- 3 Fold the flaps to the Pocketfold and roll the glue down the flaps. Press it flat to the invite and to stick!

Use our easy to apply roller glue for speed and no mess!

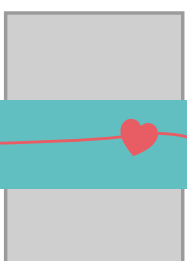

Glue here... Then stick it shut!

- 4 Glue the edges of the backing mat and stick it to the invite, then stick the text mat on top of this.

Put in your inserts!

- 5 Wrap the belly band around the closed invite and seal it shut with a line of glue. Add any extra embellishments you wish!

Adding pretty ribbon, buttons, lace or extra embellishments will make your invites extra pretty and can give the guests a sneak peak to the theme of your wedding! View our gallery online for inspiration!

Have fun! Best enjoyed with friends and a cuppa!
